Swirl Without Flush

The Filthy Untreated Toilet That is The United States of America

About The Cover

About the Cover

In a racial hate crime built around rape of DNA rights, with no recourse, children are sexalized around the clock in my vicinity and even on my property by racketeer grifters, creating the public impression of me, the optics in front of the camera or public, which will match the forged confession made by an impersonator of me.

Foreword

There are a number of core elements of the U.S as a toilet of the foulest turd refuse that flow from this picture and in this About The Cover chapter, effectively the Foreword, I will introduce some of those major elements.

Measure a Society

In previous books I have researched a developed a theory that my mother have been from a targeted genetic group, FOXP2 Windsors. I will focus on that theory less in this book.

I can not prove any of that. Based on information I have mostly provided that is just my best available guess to explain inexplicable events surrounding me for decades.

My best theory is that to cover that up foreign criminals with support inside the U.S. Government are covering up 1961 events, and that I am being portrayed as a peeper, a pedophile, a size 13 guns and boots buyer, and a retard to justify social rejection of me and justify medical asset seizures.

What I can prove is the illegitimacy of State acts, motivated for whatever reasons the State holds, perhaps the FOXP2 gene, so this focuses on that illigitamcy of the U.S. actions representing the illigitamc of the US itself simply based on its own acts.

In the Measure a Society chapter I will focus on what I can be certain of, that the

events and actions surrounding me are deceitful shams which contradicts the facts I do know to be true, including my non-pedaphile interests.

Secret Police and the Non Sequitur Wall

The next book section is Secret Police and the Non Sequitur Wall.

Non Sequitur is the creation of the Arbitrary. Not flowing rationally from on thing to the next, it is merely on its own unjustified by any foundations, a lack of rational basis, not surviving rational analysis.

The black dangerous prison ghetto active drug addiction and likely sex offender next to me in 47 is one of the walls, or black sheets which surround me, are in fact Secret Police planted criminals who’s existence and acts rather than justified rationally, justified at all, are police backed shills of a dangerous, dirty, and filthy USA who’s acts are concealed behind these police backed criminals.

Rather than be the people in a person's vicinity which are neutral and honest, these shills are there to commit crimes on behalf of the police or along with the police.

It appears in my case the shills are recruited sex offenders, homeless people, or racially motivated criminals who wish to assault whites and do so with impunity or the ignorant veneer of moral sneer towards whites.

Had there been rationality the dumpster refuse Corpus Christi Police would have and should have opened fire on him on at least 10 different occasions, but the CCPD are dumpster refuse and will back him on behalf a filthy corrupt skidmark of the USA.

Constitutional Sensitivities

Sexualing children, housing rights, sexual reproductive rights, murder (of Jen Moore and others,) genocide and political corruption are the most important topics of all, and this is where the the dirtiest dumpster of world history, the United States of American, exceeds at substituting feces for the rule of law.

Moral Filthiness of a Morally Filthy USA

The police, to created a framework for illegal genetics rape, have built a false flag system in which police crimes (mostly by blacks) are committed against sexuallized white women, in law enforcement activity reminiscent from Sub Saharan African rape squads which act with impunity and in the U.S. Washington Elite are in on it and want to keep it going.

It also applauds our European friends Russia for helping the United States realize its police are corrupt and racketeering is taking its toll on US officials and the political system of the U.S.

Thus this book continues to restate Copblock based obserations (from US V EPD now in Measure a Society chapter) and the opportunities with Colossus and Mother Russia from the New Electro, now in Rome Statute chapter of this book.

Optics

What most of the shills, who are police backed con artists operatives, are doing is either covering police crimes by planting evidence on an innocent person (myself) creating me as the "likely suspect" or otherwise implicating me as the likely type, and doing so using refutable ambiguity planted before the public.

Refutable to me that the optics hold any allegation or meaning, but sold the public as optics before the public which actually do have meaning.

In other words the shill with aviator glasses glaring at me has nothing to say in reality, in true reality, but it sure is supposed to look like there actually is something to say.

This book is not about military intelligence, but some of this does have names such as cutouts.

Cutouts are an alias for a person, like Fuzzy Bunny, or even a name, Tom Duham or Edward P Donegan, and then someone using that alias such as Tom Duhmas Dunham, Edward G Donegan, so the mistaken identity will forge evidence not actually evidence regarding the actual people.

Feces Skidmark Sewage, let me Unsee it all somehow

Whether it be some black in a Gold's Gym shirt, involuntarily to me,

"Hardstyles" past my spin bike in the gym as I listen to hardstyle music and some line in the music says "family" or any other act of created public planted meaning, I keep thinking nothing in the US could disgust me more than what I have already seen, that would be impossible, but then, then, I blink my eyes again and more skidmark sewage in front of my eyes that is The United Shit Bucket States of SHITPIT USA.

Secret Police and the Non Sequitur Wall

Event Horizon Surround Me Which Merely Draw Private Actors Into State Backed Corruption

For carrying out police criminal harassment and criminal acts against innocent civilians, corrupt civilians or corruptible civilians are planted or created or duped.

Because illegal state acts will be carried out by private actors and with no court procedure, no Due Process rights of the victim (myself or Veronica Hoffman or Tom Dunham) will be protected.

I have made up various names for this, the Seep Wall, of feces seeping into those people or things surrounding me, or maneuvered to surround me, I think this is also the "Paywall" of the FBI, paid informants planting evidence but pretending to be neutral, or simply Grifters, those who will or are recruit-able into or are disposed to crimes or espionage.

The Fifth of July

Maliciousness

As described earlier the acts of the US Government and its agents are non-sequitur, the sequence of events do not flow from one to the next rationally but are foundation-less instead, arbitrary, and are government acts without justifying basis in geniune facts.

Mere, pretexts, pretenses, pretend reasons, are manufactured quite publicly by plain clothes shills in place of the necessary logical reasons,logical foundations, which would justify government acts.

The manufacture of pretexts has included clear deceit such as appearance manufactured before the public of my having limited mental faculties, limited mental faculteis which require others, not me, to administer my assets.

Again, other books speculated as to why this is being done, this book focuses less on that.

This book was started on the Fourth of July 2019 and on the Fifth of July I describe the corrupt environment and corrupted environment I live in and am surrounded by.

PizzaGate

PizzaGate does exist and Pizzsgate is iconic, embematic, of exactly what I am approaching in this book.

I can speculate WHY the it is being alleged that when I am merely ordering pizza in a pizza shop that others claim I have ordered something else.

I do not know why an alledged element is added on which does not in reality exists. Nor can I say who is doing it, but my guess is it is backed by the retardation firm wanting my DNA and making fake claims to it.

Misinterpretation of my meanings merely is people who want Yes and say anything I do even on a different topic is a Yes to what they want. lt is not. It is

"so THAT MEANS 'blah blah blah'" by whoever wants BLAH BLAH BLAH.

But again, why people want my DNA was the earlier books. THis book merely states the attempted constructions forced upon me are fraudelent acts, and fraudulecy of that and similar acts are the focus of this book.

Modus Operandi

Just me, the real visit to a place

I	II
III, normal activities, nothing else	IV
Entered	Left

Shills, con artists, will surround me though.

A. In Element A of the Long Con others next to me will take #Datass photos of shills, plants. Shill parents will also assault me and also wear aviator glasses etc., The sexualized shills R!!! offensive
B. In Element B at a later location, a set in an apartment made to look like mine, or a room or apartment I am not in at the time, an impersonator (Dopple) of me who was working with the shill will solicit a White Dominatrix and be punished after being caught with the exploitive of women and children photos. Another scenario is a parent of a child along with the Fugitive Recovery Marshalls team track down the Dopple to the mere look alike set where I will be impersonated. The impersonator of me will under instruction of the DOminatrix and Marshall sign my genetic rights over to the charity which stageed the whole think, like the Retarded Children's fund or missionary charity group (tacos not bombs)
C. In Element C of the Long Con the conservancy or asset management I never wanted or signed up for will both agree to and receive asset seizures of genetics rights and sell or use them while also asserting to others including women I might be near that I am pariah and all should avoid any relationship at all with me, ARC of Northern Virginia is the sole contact for me.

Long Con within a public place

Element A	Element B
I Uwnated Conserancy Planted Shils	II Corrupt SJW Law Enforcement
III, normal activities, mere innuendo towards me	IV Shill impersonator forges my confession
Entered	Left

Modus Operandi at Omni and Pete's Coffee Corpus Christi

My would be normal visit to Omni and Petes

Element A	Element B
I Disgustingly sexualized and under-dressed chilren surround me an others photograph them. Homeless ppl try to tie me to phone on Pete's coffee counter	II ?, my guess is per Jen Moore is male from 45 checks in, parties hard and uses wifi, ejected for child porn
III, normal activities, nothing else although. I do report to Petes and blacks in Omni clothes scam under way.	IV I was not in the Omni but I suspect the black male from 45 chekced in and for the purpose of confessing to what was staged, as me, confessed
Entered, I am asked to leave, no reason offered, by person refusing to identify himself, surrounded by scuzzy blacks in Omni worker clothes	At home, left, never heard anything else about this, though it repeated when I went back.

I do have photos of North Beach where I overheard the guy from 45 confession to what OTHERS did at North Beach and the confession was done in 47.

Same kind of situation as always, SOMEONE ELSE films what is exploitative and disgusting, someone else, as me, will confess to photographing the SHILLS in my vicinity which were planted in public.

In the days that followed my visit to Omni/Pete's there was breifly an Omni Guest wifi signal visible in my apartment. I never checked in and only connected to Omni Lobby during my lobby time.

Likely after I left the black male from 45 who does face the Omni probably did check in, and as me, confesss to what it looked like I was doing during my visit.

He not only duplicated me by name, most likely, but also my needd for Wifi and he probably surfed child porn on that wifi preentding to me be.

In the days that follow my throwout from Omni the white female girflfriend of the black male from Omini exited 45 just as I was exiting 46 and appeared to walk down the hallay with me. This is the only time in four months this has happened. She mentioned in passing, I say this for ID purposes, that she worked at Brewsters.

This all comports to Element A and Element B rico scheme.

According to statements from the black male in 47 who is a friend of his and show share furniture with him a fee is payed for each false claim against me created by those who benefit from the claim.

The black male in 45 may have been brought to justice by the black marshalls who caught him at Omin Petes by alibaster Mistress Isis who visited a location which looked like my old apartment at Casa Linda. https://mistressisys.com/

Fitting the pattern of using 47 as alleged victim and 45 as the impersonator

<table>
<tr><td colspan="3">Empt Lot and then Bay, sometimes planted teen</td></tr>
<tr><td>#46, Ed White Male</td><td rowspan="2">Halway,
Princess Apartments</td><td>#45 Element B, Black Male,
across #46, fake Ed Donegan who will confess as though Ed Donegan</td></tr>
<tr><td>#47 Element A, Black Male and aslo children, family</td><td>unkown</td></tr>
</table>

When I heard throgh the wall between 46 an 47 a blubbering confession about filming a child and being caught of it went like this. "How dare you film a child

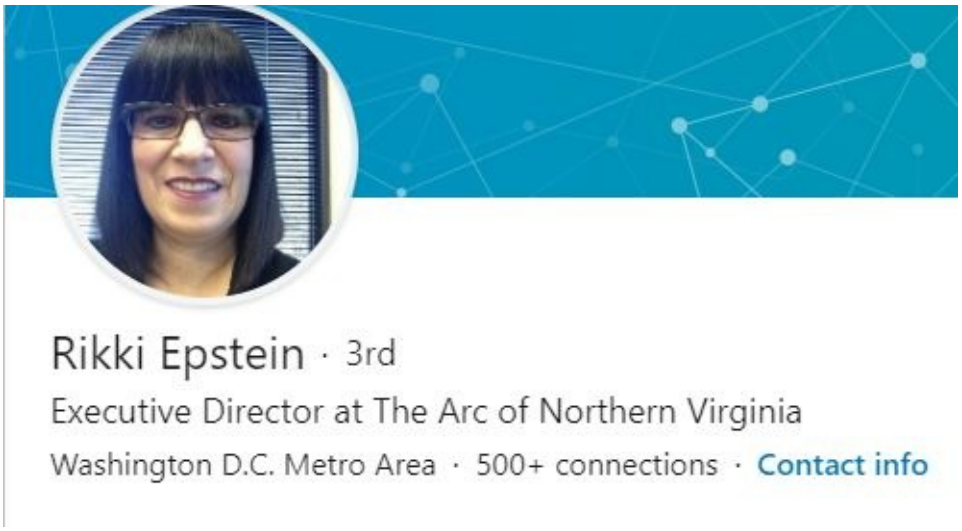
so young!" "I am sorry I am so so so sorry!" "Well since you don't have any money you will have to pay some other way" "ok, how about bone marrow?"

That is a a paraphase rather than transcipt but that was the tone and content of the conversation exactly.

Like the cover photo of this book, the child from 47 is likely the victim, and person from 45 as me confessing to exploiting the child. I want and have nothing to do with this in reality.

RICO, likely Racketeering Actives tied to the False Claims Racket

Rikki Epstein and the Advocacy for Retarded Children firm ARC of Nothern Virginia



The shills surrounding me allegeing I am retarded or in teen or other trafficking at setup at least in party by ARC of Northern Virginia, who claim a connection to me that I am retarded and therefore manage my assets. I never signed up for them.

Jeffery Epstein

Major medical reseracher Jeffert Epstein may setup the child shills who will make fake claims against me to seize my medical assets.

Judge Roll

In a Retiremnet Accounts asset seizure for foreign countries he ruled against the Obamas. He was murdered, per Russian Inteligence he was murdered o=ver a trust fund case the size of my own.

Justice Scalia

World distribution of IQ genes, likely seized in Pizzagate setup by the Epsteins.

State Violence Through Medical Violence

It appears some goulish cannnabalistic desire exits for some element of my biological assets, possibly in CCR5 gene, cancer properties, geneology, or other interests, and seeming race neutral fake child porn claims are being made against me so that biological assets can be seized.

Though not obvvios from the content of this book so far, in the larger story, this has involved racial threats against me and organization of non-whites into positions alleging to reprent my interests when often they represent their own interests, such as African connected people.
